Introduction ..... 29

School Additional Requirements Diagnostic ..... 30

**2015-2017**

Overview ..... 33

Goals Summary ..... 34

- Goal 1: All students will increase their skill in using and understanding fractions. .... 35
- Goal 2: All students will apply scientific processes in all content areas..... 37
- Goal 3: All students will show improvement in the comprehension of informational text..... 38
- Goal 4: All students will construct a cohesive piece of writing. .... 41
- Goal 5: All school community members will display cultural competence. .... 44

Activity Summary by Funding Source ..... 46

## **Introduction**

The SIP is a planning tool designed to address student achievement and system needs identified through the school's comprehensive needs assessment (CNA). Additionally, the SIP provides a method for schools to address the school improvement planning requirements of Public Act 25 of the Revised School Code and the Elementary and Secondary Education Act (ESEA) as applicable.

# **Executive Summary**

## **Introduction**

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.

## **Description of the School**

**Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?**

Conant Elementary School is configured as a kindergarten through fourth grade school, and has a student population of 398. We have an attached tuition based preschool, called "Bloomin' Kids," that utilizes our Media Center, Computer Lab and Fine Arts Wing.

Conant Elementary School is located in Bloomfield Hills Township. Bloomfield Hills is located in the heart of Metro Detroit's affluent northern suburbs in Oakland County in the US state of Michigan, 20.2 miles (32.5 km) northwest of downtown Detroit. As of the 2010 census, the city population was 3,869. Bloomfield Hills consistently ranks as one of the top five wealthiest cities in the United States with population between 2,500 and 9,999. It currently is listed at the number four position, and in 1990 it was ranked number two. Bloomfield Hills has the second highest income for a municipality with over 1,000 households in the country and the first highest income in the state of Michigan. The median income for a family is over \$200,000. In 2000, 49% of residential property in Bloomfield Hills had a value of over \$1,000,000.

In the mid-1990s Conant had its highest enrollment of 470 students. In recent years, Conant has had an overall declining enrollment; dropping to a low point last year of 331. The automotive industry has been a primary employer of parents in the Conant community, particularly in the executive and engineering fields. When the automotive economy began struggling, many Conant families relocated out-of-state. Recently, Conant's enrollment has increased, with a projected enrollment for 2016-17 of 398 students.

The resurgence of enrollment this year is encouraging for Conant and the Bloomfield Hills community at large. The increased enrollment brings with it a change in ethnic demographics. Five years ago the ethnicity of the Conant student population was: 85.6% Caucasian; 5% African American; 6.9% Asian; 1.5% Middle Eastern; and 1% Hispanic. The current ethnicity of the Conant student population is: 75.4% Caucasian; 10.5% African American; 8.8% Asian; 3.4% Middle Eastern; and 1.4% Hispanic. This greater diversity calls for a culturally responsive approach by all members of the school community.

## **School's Purpose**

**Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.**

Mission Statement:

The Conant School mission is to foster inquiry and innovation while preparing active citizens to participate in a global community.

We Believe:

- \* Do first what is best for children!
- \* Learning is highly influenced by emotion. Therefore, we need to provide highly engaging and meaningful learning experiences where individuals are encouraged and supported to construct their own knowledge.
- \* Students need enriched learning environments where they feel safe and empowered, and environments which have high expectations for academic achievement and citizenship.
- \* Curriculum, assessment and instruction need to be aligned, authentic and engaging to increase student achievement.
- \* All members of the learning community need to feel ownership in the shared mission and vision of our school community.
- \* Decision-making is the shared responsibility of all stakeholders in the educational program.

Conant Elementary School Philosophy:

As an authorized IB Primary Years Programme school, Conant Elementary "focuses on the development of the whole child as an inquirer, both in the classroom and in the world outside." Our students participate in project-based learning that reflects the PYP philosophy of an integrated curriculum and incorporates 21st Century skills, global-mindedness, and the Common Core State Standards. We utilize inquiry-based instructional practices that build on children's natural curiosity and encourage students to use critical thinking skills, reflect on their learning and compassionately develop solutions for real-world problems.

The ultimate goal of every IB school is for their students to exemplify the characteristics of the learner profile. The learner profile encompasses the attributes and attitudes of successful learners and is as follows:

- \* Inquirers - their natural curiosity has been nurtured and they actively enjoy learning
- \* Thinkers - they exercise initiative in applying thinking skills critically and creatively to solving complex problems
- \* Communicators - they receive and express ideas and information confidently in more than one language
- \* Risk-takers - they approach unfamiliar situations without anxiety and have the confidence to explore new ideas
- \* Knowledgeable - they have explored themes that have global significance and have acquired a critical mass of knowledge
- \* Principled - they have a sound grasp of the principles of moral reasoning and have acquired integrity, honesty and a sense of justice
- \* Caring - they show sensitivity towards the needs and feelings of others, and have a sense of personal commitment to helping others
- \* Open-minded - they respect the values of other individuals and cultures and seek to consider a range of points of view
- \* Well-balanced - they understand the importance of physical and mental balance and personal well-being
- \* Reflective - they give thoughtful consideration to their own learning by constructively analyzing their personal strengths and weaknesses.

## School Improvement Plan

Conant Elementary School

---

The Primary Years Programme centers its curricular approach on inquiry. It is a philosophy that guides program development and student learning. Students participate in directing their own learning by questioning central ideas presented through Units of Inquiry. In different ways, all students at Conant are engaged in open-ended, relevant, student-centered activities which allow them to explore the essential elements of each Unit of Inquiry. The traditional core subject areas, such as math, science, language arts and social studies provide students with subject specific skills, concepts and understandings, in accordance with the Common Core State Standards and our Bloomfield Hills Schools curriculum.

All of our students learn through the workshop model and Units of Inquiry, with a synthesizing inquiry, "exhibition", taking place at the end of 4th grade. The "4th Grade PYP Exhibition" is the culminating inquiry, which showcases our students' 21st Century skills in: reading, writing, research, technology, collaboration and presentation; with the cornerstone purpose being a real-world action project. We are proud that Conant students were the first-ever 4th grade students to complete these rigorous exhibition projects!

In PYP, children are encouraged to become globally aware, culturally sensitive and open-minded citizens, who celebrate the fact that they attend a school with a diversity of cultures and beliefs. They are encouraged to become well-balanced individuals with a wide range of physical, musical, artistic, academic and cultural interests.

Every day at Conant brings us something new to discover, learn, practice, embrace, and reflect upon. It is the first stage in learning in Bloomfield Hills Schools where our district mission is to enable learners to become architects of their futures, building on a foundation of scholarship, citizenship, service and integrity and where we teach and learn by the following Guiding Principles.

Bloomfield Hills Schools Guiding Principles:

- 1) The curriculum makes time for depth by thoughtfully managing the number of standards ('less is more' concept.)
- 2) Content knowledge, while important, ceases to be the primary learning outcome, becoming a vehicle to support higher levels of thinking (application, analysis, synthesis, evaluation, creation.)
- 3) Deep student ownership and control of learning. Teaching shifts to facilitation.
- 4) Strong, caring relationships and very high levels of collaboration among/between staff and students.
- 5) A culture that embraces risk-taking in the learning process believing that sometimes more is learned from failure than success.
- 6) Project-based/Inquiry-based interdisciplinary learning boosts critical thinking and creativity by allowing students to frame problems and construct their own solutions.
- 7) Learners are connected to the world outside the school.
- 8) Engagement in meaningful work that increases learner passion and motivation.
- 9) Technology tools are readily available and easily accessible to support personalization.
- 10) Staff share a commitment to a small set of clearly understood annually identified, generally agreed-upon, non-negotiable instructional goals.

## **Notable Achievements and Areas of Improvement**

**Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.**

Conant Elementary School Notable Achievements:

Conant is an Authorized International Baccalaureate Primary Years Programme School.

Our Primary Years Programme Authorization includes our attached Conant Bloomin' Kids Preschool Three and Four-Year-Old programs.

Our 4th grade Primary Years Programme Exhibition was the first ever exhibition 4th grade exhibition anywhere; it has always been a 5th or 6th grade end-of-programme project.

Conant students develop "Attitudes in Action" service projects to cultivate a sense of community within the building and expand their thinking to include the community at large.

A variety of software programs and technology mediums are used to create integrated Units of Study, helping students become more proficient in content areas as well as in technology.

Our PYP Coordinator facilitates weekly meetings with every grade level team of teachers as they develop, teach and reflect upon their transdisciplinary Units of Inquiry.

We have developed and implemented a school wide screening process to identify students who are struggling in reading and math.

Conant General Education Resource Teachers use formative assessments to provide and track targeted instruction for kindergarten through fourth grade at-risk students in reading, writing and mathematics.

We created a flexible schedule for our General Education Resource Teachers, enabling us to extend our day and provide targeted instruction before school.

The fine arts, physical education and Spanish instructional programs address the specific standards and benchmarks of their discipline, and whenever possible are integrated into the grade level "units of study."

Conant is NCA Accredited.

Conant is ranked in the 95th percentile for achievement.

We are a green school with a status of Evergreen.

In recent years, our M-Step scores, in reading, have met 85% proficiency in grade three last year and grade four this school year. Various assessment measures indicate growth for 100%of students enrolled.

## School Improvement Plan

Conant Elementary School

---

### Conant Elementary School Areas for Improvement

We are working to decrease the gap in achievement between our highest and lowest achieving students in reading, writing and mathematics.

## **Additional Information**

**Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.**

All of our students learn through the Workshop Model and Units of Inquiry, both of which utilize the inquiry method and personalize the learning to meet the students' needs.

Our teachers along with their students design Learning Targets for lessons. These learning targets identify the specific skill, concept, or strategy the child will be able to demonstrate at the end of the lesson.

Differentiated instruction in the classroom allows fitting the curriculum to the child rather than fitting the child to the curriculum.

The countywide oral pre-school, kindergarten and multi-age Deaf and Hard of Hearing programs are located at Conant.

Conant is a recognized "Emerald Green" school.

We applied for and received a "Let's Move Salad Bars to Schools" salad bar as part of our Healthy Lunch initiative.

# **Improvement Plan Stakeholder Involvement**

## **Introduction**

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.

## **Improvement Planning Process**

### Improvement Planning Process

**Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.**

Our Conant Leadership Team consists of a representative from each grade level, specialty area, and support staff. Two members on our Leadership Team play a dual role, as they are also parents of students in our school. The members of our Leadership Team are the facilitators for each Goal Committee. All Leadership Team members volunteered for the committee. A smaller committee comprised of some of the leadership committee also sit on the School Improvement Committee.

Leadership Team meetings occur once per month before school. School Improvement Team meetings occur during professional development days, with the data analysis meeting occurring annually in March. SIP Team meetings occur before or after school or during lunch depending on the needs of the team members.

**Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.**

Many members of the Conant instructional staff are part of the Conant School Improvement Team. Our Conant Leadership Team consists of a representative from each grade level, specialty area, and support staff. Two members on our Leadership Team play a dual role, as they are also parents of students in our school. The members of our Leadership Team are the facilitators for each Goal Committee. All Leadership Team members volunteered for the committee.

Each Goal Team consists of cross grade-level classroom teachers, specialty area teachers and support staff. Each team analyzed assessment data in each of the core areas to determine areas of strength and weakness. They examined the data to determine gaps among the various demographics. They researched best practice information and selected strategies to address the need areas and close the gap.

**Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.**

The final Conant School Improvement Plan is sent to all members of the Conant staff electronically. The Conant School Improvement Plan is then posted on our website for our parents and school community members. Annual and weekly updates are conveyed to our parents and school community via our school news e-blast.

# School Data Analysis

## **Introduction**

The School Data Analysis (SDA) is a diagnostic tool intended to facilitate rich and deep collaborative discussions among staff members about school data. The SDA can serve as a guide to determine a school's strengths and challenges as well as directions for improvement based on an analysis of data and responses to a series of data - related questions in content areas. This data collection and analysis process should include the identification of achievement gaps as well as reflections on possible causes for these gaps. This diagnostic represents the various types of data that should be continuously collected, reviewed, analyzed and evaluated. Completion of the SDA is one piece of a school's comprehensive needs assessment process.

## Demographic Data

Demographic data is data that provides descriptive information about the school community. Examples may include enrollment, attendance, grade levels, race/ethnicity, gender, students with disabilities, English learners, socio-economic status, graduation rate, suspensions/expulsions, etc.

### Student Demographic Data

#### 1. In looking at the three year trend in student enrollment data, what challenges have been identified?

Enrollment data has been fairly consistent over the past three years. We will continue to monitor our enrollment yearly. We have limited transiency. The only real transiency we experience is related to relocation of parents' jobs.

We have no significant increases or decreases in ethnic or gender make up of the student population.

### Student Demographic Data

#### 2. In looking at the three year trend in student attendance data, what challenges have been identified?

Mid year re-locations is our only limited challenge. Our enrollment continues to be very stable. We have less than 2% of students who have tardiness or truancy concerns.

### Student Demographic Data

#### 3. In looking at the three year trend in student behavior data (discipline referrals, suspensions and expulsions), what challenges have been identified?

Unstructured times such as recess, transportation times, and lunch are the most frequent times for behavior concerns/infractions. Since the onset and implementation of a formal PBIS connected to our curriculum, minor and major infractions have decreased. Behavior concerns or referrals have been yielded to repeat offenders. We are not disproportionate in terms if discipline of gender, or special education students, or of ethnicity.

### Student Demographic Data

#### 4. What action(s) could be taken to address any identified challenges with student demographic data?

We need to discuss and improve the delivery and frequency of teaching replacement behaviors to students who have been identified as repeat offenders.

### Teacher/School Leader(s) Demographic Data

#### 5. As you review the number of years of teaching and administrative experience of the school leader(s) in your building, what impact might this have on student achievement?

This year we have a new administrator to the building who has years of experience as an elementary school administrator. The staff has been mostly consistent, yet retirements, leaves of absence and teachers choosing to leave the professional have both positively impacted  
SY 2016-2017

and negatively impacted student achievement. This staff views student achievement in an authentic fashion, and use a plethora of tools and assessments to measure achievement. We do not confine student achievement measurement through state assessment results only.

### Teacher/School Leader(s) Demographic Data

**6. As you review the number of years of teaching experience of teachers in your building, what impact might this have on student achievement?**

We have many teachers who are seasoned and very few who are in probationary years. We try to use our experiences within teaching and strategic professional development to build capacity for exemplary teaching learning for every teacher in the building. This team and mentoring approach appears to be having a positive impact on student achievement.

### Teacher/School Leader(s) Demographic Data

**7. As you review the total number of days for school leader absences and note how many were due to professional learning and /or due to illness, what impact might this have on student achievement?**

Absences for professional learning and illnesses among leadership have been minimal this year for the administrator.

### Teacher/School Leader(s) Demographic Data

**8. As you review the total number of days for teacher absences due to professional learning and/or illness, what impact might this have on student achievement?**

Absences for teachers' professional learning are numerous. Recognizing the consistency for students, we try as best as possible to keep consistent substitute teachers across our building. Absences due to illness and/or unforeseen circumstances are considerably average and would have minimal impact on student growth. Because of our team planning approach to teaching and learning, these absences impact student achievement minimally due to this embedded culture.

### Teacher/School Leader(s) Demographic Data

**9. What actions might be taken to address any identified challenges regarding teacher/school leader demographics?**

The building principal would like to help initiate a teacher recruitment program which could help elicit teacher candidates which better represent the diverse ethnic population in our school.

## **Process Data**

Process data is information about the practices and procedures schools use to plan, deliver and monitor curriculum, instruction and assessment.

### **10. In reviewing the results of the School Systems Review or the Interim Self Assessment/Self Assessment, what strands/standards/indicators stand out as strengths?**

Standard 5 and Standard 9 stand out as major strengths. We have a shared approach to leadership and our communication among each other and with all school stakeholders is stellar which serves our students in multiple ways.

### **11. In reviewing the results of the School Systems Review or the Interim Self Assessment/Self Assessment, what strands/standards/indicators stand out as challenges?**

Under standard 6 Organizational Management Indicators Q and R appear to be an area where we may not be focused or the system may not be coordinated to optimal potential. We seem to have a breadth of resources and we may not be realizing the effect or true potential of a more strategic utilization of certain resources / practices.

### **12. How might these challenges impact student achievement?**

Students may not benefit from a concerted effort of trying one strategy and have it used with fidelity since there are so many resources available. On the other hand, the exposure to various practices and resources may be advantageous to various styles of learning.

### **13. What actions could be taken and incorporated into the School Improvement Plan to address these challenges from the School Systems Review or the Interim Self Assessment/Self Assessment.**

We are making a strategic vertical plan for the teaching and learning of writing. The use of Writing Pathways will provide consistent vertical assessment tools and perceptions of for students about how writing is assessed.

### **14. How do you ensure that students with disabilities have access to the full array of intervention programs available i.e. Title I, Title III, Section 31a, IDEA, credit recovery, extended learning opportunities?**

We have defined Tier I, Tier II and Tier III strategies, activities and protocols which support the system of student support. Along with the general education teachers, we have general education resource teachers and reading recovery to support those students who may be struggling academically. This system of tiered interventions is used daily and helps mitigate additions to our special education population. A plethora of resources, both in personnel and in activities are available to struggling and higher achieving students based on student need. These needs are identified through the general education classroom teachers' formative and summative assessments, and then the BIT (Building Intervention Team) facilitates meeting mechanics to make data driven decisions to meet the needs of students.

**15. Describe the Extended Learning Opportunities that are available for students and in what grades they are available?**

We have inquiries during student lunch, we have before and after school classes, and through our IB PYP, students are encouraged to take actions to help the world around them based on their own learning and findings about the world. We also offer math grade up testing and placement at the end of each school year.

**16. What is the process for identifying students for Extended Learning Opportunities and how are parents notified of these opportunities?**

In cases of a pull out program to enrich the student experience, or to help struggling students, parents are notified. Special education students have IEP's which are in accordance with federal law and with parents' knowledge.

**17. What evidence do you have to indicate the extent to which the state content standards are being implemented with fidelity i.e. horizontal and vertical alignment, in all content courses and grade levels?**

Our standards based report cards literally incorporate all grade level content areas and are addressed vertically and in the interest of what is developmentally appropriate.

**18. How does your school use health survey/screener results (i.e. MIPHY) to improve student learning? Answer only if you completed a health survey/ screener.**

We did not use a health screener.

## **Achievement/Outcome Data**

Achievement/outcome data tell us what students have learned. These include classroom-level, benchmark, interim and formative assessment data as well as summative data such as standardized test scores from annual district and state assessments. If the school completed the Student Performance Diagnostic for the AdvancED External Review, please insert 'See Student Performance Diagnostic' in each text box.

### **19a. Reading- Strengths**

96% of all students this year met or exceeded grade level expectations for reading based on our internal assessment. NWEA results yield over 92% of students showing growth in reading. Formal M-Step data is not yet available and does not comprehensively assess our student population. However, preliminary results indicate some great results and areas to improve.

### **19b. Reading- Challenges**

Supports such as AARI, Reading Recovery, Reader's Workshop and our technology based interventions and activities mitigates reading challenges at Conant. Less than 2% of our student population are English Learners but can present challenges based on their age and dates of entry into the United States. We mitigate these challenges by offering a pull out program as well as a full English immersion program for these specific students.

### **19c. Reading- Trends**

Our reading trend data is increasing and continues to thrive. We are seeing a decrease in students entering kindergarten with a preschool experience which has the potential to effect reading trends. At this time we continue to show success in reading.

**19d. Reading- Summary**

**Summarize how these challenges will be addressed in your School Improvement Plan. Indicate Not Applicable (NA) if there is no challenge or this challenge will not be addressed at this time in the School Improvement Plan. Indicate the relevance or impact on tiered instruction if appropriate.**

The purchase of more high interest informational text will engage our youngest of learners, especially boys.

**20a. Writing- Strengths**

Informational writing is strong. We believe this is due to our implementation of inquiry based learning and making students reflect on their learning.

**20b. Writing- Challenges**

We are looking vertically on how we can improve our narrative writing. Through PYP and through math and various reading genres, connecting narrative writing to make it more engaging, especially for boys, is one of the areas needing improvements. Another area of improvement resides in making writing cohesive.

**20c. Writing- Trends**

End of year data reveals writing is improving each year (within each school year and vertically through the grades). It is difficult to measure trends in writing as state targets, rubrics, times of testing and format of testing changes yearly.

**20d. Writing- Summary**

**Summarize how these challenges will be addressed in your School Improvement Plan. Indicate Not Applicable (NA) if there is no challenge or this challenge will not be addressed at this time in the School Improvement Plan. Indicate the relevance or impact on tiered instruction if appropriate.**

## School Improvement Plan

Conant Elementary School

---

Writing is embedded across all content areas and will be addressed with a roll out of new writing measurement tools embedded in Writing Pathways.

### 21a. Math- Strengths

NWEA data and end of course assessment data reveal number sense, one to one correspondence, computation, fractions, reading charts and graphs, and geometry are strengths.

### 21b. Math- Challenges

Multi-step problems and application of computation continue to be areas in which we have opportunity for improvement.

### 21c. Math- Trends

We are seeing vast improvements regarding student achievement in the subcategory of fractions. This is part of our school improvement plan and is also trans-disciplinary through the content areas and the arts.

### 21d. Math- Summary

**Summarize how these challenges will be addressed in your School Improvement Plan. Indicate Not Applicable (NA) if there is no challenge or this challenge will not be addressed at this time in the School Improvement Plan. Indicate the relevance or impact on tiered instruction if appropriate.**

We will continue our work with fractions and with multi-step problems which ask students to apply knowledge into their problem solving.

### 22a. Science- Strengths

Our initial M-Step raw data shows incredible improvement in science content overall. The use of PYP as a vehicle for inquiry based learning in science is thriving and so is students' ability to articulate their thinking.

### 22b. Science- Challenges

Academic vocabulary and interpreting data.

### 22c. Science- Trends

Science data is improving over time and dramatically in recent time.

### 22d. Science- Summary

**Summarize how these challenges will be addressed in your School Improvement Plan. Indicate Not Applicable (NA) if there is no challenge or this challenge will not be addressed at this time in the School Improvement Plan. Indicate the relevance or impact on tiered instruction if appropriate.**

We continue to use visual literacy to develop understanding of academic vocabulary and to interpret science data and concepts. Moreover, conceptual and hands on learning will be part of our training and implementation of the Next Generation Science Standards.

### 23a. Social Studies- Strengths

Civic responsibility, government, and understanding the world and how we effect it and how it effects us our definite strengths.

### 23b. Social Studies- Challenges

We don't see many challenges in this area.

### 23c. Social Studies- Trends

PYP unit projects reveal high levels of student understanding and engagement.

### 23d. Social Studies- Summary

## School Improvement Plan

Conant Elementary School

---

**Summarize how these challenges will be addressed in your School Improvement Plan. Indicate Not Applicable (NA) if there is no challenge or this challenge will not be addressed at this time in the School Improvement Plan. Indicate the relevance or impact on tiered instruction if appropriate.**

N/A

## **Perception Data**

Perception data is information collected that reflects the opinions and views of stakeholders. If the school completed the Stakeholder Feedback Diagnostic for the AdvancED External Review, please insert 'See Stakeholder Feedback Diagnostic' in each text box for survey feedback already collected from students, parents and staff.

### **24a. Student Perception Data**

**Which area(s) indicate the overall highest level of satisfaction among students?**

School climate, peer relationships, art and physical education have the highest level of student satisfaction.

### **24b. Student Perception Data**

**Which area(s) indicate the overall lowest level of satisfaction among students?**

While still considerably favorable data, the lowest level of student satisfaction is music.

### **24c. Student Perception Data**

**What actions will be taken to improve student satisfaction in the lowest area(s)?**

I am hiring a new music teacher to begin in the fall of 2016. Vocal and Instrumental resources and allotted time are abundant.

### **25a. Parent/Guardian Perception Data**

**What area(s) indicate the overall highest level of satisfaction among parents/guardians?**

The quality of instructional program received the highest level of satisfaction.

### **25b. Parent/Guardian Perception Data**

**What area(s) indicate the overall lowest level of satisfaction among parents/guardians?**

1.03% of respondents reported below average belief in organization presented by school administration.

### **25c. Parent/Guardian Perception Data**

**What actions will be taken to improve parent/guardian satisfaction in the lowest area(s)?**

I will ensure all communication through the organization and organizational structures, in regards to the student experience, are firmly in place.

**26a. Teacher/Staff Perception Data**

**What area(s) indicate the overall highest level of satisfaction among teachers/staff?**

97% of staff felt the instructional programs at Conant were good or outstanding.

**26b. Teacher/Staff Perception Data**

**What area(s) indicate the overall lowest level of satisfaction among teachers/staff?**

7% of staff reported average to below average organization set forth by school administration.

**26c. Teacher/Staff Perception Data**

**What actions will be taken to improve teacher/staff satisfaction in the lowest area(s)?**

I will ensure all communication through the organization and organizational structures, in regards to the student experience, are firmly in place.

**27a. Stakeholder/Community Perception Data**

**What area(s) indicate the overall highest level of satisfaction among stakeholders/community?**

The community at large feels the instructional program and the school climate are both equal strengths of the building.

**27b. Stakeholder/Community Perception Data**

**What area(s) indicate the overall lowest level of satisfaction among stakeholders/community?**

2% of people reported average regarding their perception of organization set forth by the school's administrator.

**27c. Stakeholder/Community Perception Data**

**What actions will be taken to improve the level of stakeholder/community satisfaction in the lowest area(s)?**

I will ensure all communication through the organization and organizational structures, in regards to the student experience, are firmly in place.

## **Summary**

### **28a. Summary**

**Briefly summarize the strengths and challenges identified in the four kinds of data-demographic, process, achievement/outcomes and perception.**

Our instructional program is well perceived and implemented with areas of concern couched in differentiating program needs and students needs across all areas. Specifically in writing, focusing on cohesive pieces of narrative writing with proper grammar and fluency is a major focus. While we would like to see an increase in the diversity of staff to more represent our student population, at this current time it does not appear to be effecting our achievement / outcomes in a negative way.

### **28b. Summary**

**How might the challenges identified in the demographic, process and perception data impact student achievement?**

Our challenges are being addressed academically and our teaching staff is becoming more diverse. At this time, we feel these continuous efforts and improvements are increasing achievement and outcomes.

### **28c. Summary**

**How will these challenges be addressed in the School Improvement Plan's Goals, Measurable Objectives, Strategies and Activities for the upcoming year? For Priority Schools, which of these high need areas will inform the Big Ideas and the Reform/Redesign Plan?**

We will ensure instruction reflects the needs of students and the attempts to close gaps which appear to be inside our programming. Challenges identified in our academic areas and in our cultural / organizational structures are addressed in our SIP and PET.

# **School Additional Requirements Diagnostic**

## **Introduction**

This diagnostic contains certification requirements for Michigan schools. This diagnostic must be completed by all schools.

School Additional Requirements Diagnostic

Label	Assurance	Response	Comment	Attachment
1.	Literacy and math are tested annually in grades 1-5.	Yes	Conant students are assessed twice annually in grades k-4 (5th grade students attend Bloomfield Hills Middle School) in the areas of literacy and math.	

Label	Assurance	Response	Comment	Attachment
2.	Our school published a fully compliant annual report. (The Annual Education Report (AER) satisfies this). If yes, please provide a link to the report in the box below.	Yes		

Label	Assurance	Response	Comment	Attachment
3.	Our school has the 8th grade parent approved Educational Development Plans (EDPs) on file.	No	Conant students interview parents and community workers, and conduct research on a variety of careers throughout their time in our Kindergarten-Fourth grade school.	

Label	Assurance	Response	Comment	Attachment
4.	Our school reviews and annually updates the EDPs to ensure academic course work alignment.	No	Conant Elementary School follows the Common Core State Standards to ensure that our curriculum is aligned k-12, and addresses career readiness.	

Label	Assurance	Response	Comment	Attachment
5.	The institution complies with all federal laws and regulations prohibiting discrimination and with all requirements and regulations of the U.S. Department of Education. It is the policy of this institution that no person on the basis of race, color, religion, national origin or ancestry, age, gender, height, weight, marital status or disability shall be subjected to discrimination in any program, service or activity for which the institution is responsible, or for which it receives financial assistance from the U.S. Department of Education. References: Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, The Age Discrimination Act of 1975, The Americans with Disabilities Act of 1990, Elliott-Larsen prohibits discrimination against religion.	Yes

<b>Label</b>	<b>Assurance</b>	<b>Response</b>	<b>Comment</b>	<b>Attachment</b>
6.	The institution has designated an employee to coordinate efforts to comply with and carry out non-discrimination responsibilities. If yes, list the name, position, address and telephone number of the employee in the comment field.	Yes	Section 504 Coordinator Pam Schoemer Director of Special Education 7273 Wing Lake Road Bloomfield Hills, MI 48301 (248) 341-5415  Christine Barnett Assistant Superintendent for Human Resources and Labor Relations 7273 Wing Lake Road Bloomfield Hills, MI 48301 (248) 341-5425	

<b>Label</b>	<b>Assurance</b>	<b>Response</b>	<b>Comment</b>	<b>Attachment</b>
7.	The institution has a School-Parent Involvement Plan (that addresses Section 1118 activities) that is aligned to the District's Board Policy. If yes, please attach the School-Parent Involvement Plan below.	No		

<b>Label</b>	<b>Assurance</b>	<b>Response</b>	<b>Comment</b>	<b>Attachment</b>
8.	The institution has a School-Parent Compact. If yes, please attach the School-Parent Compact below.	No		

<b>Label</b>	<b>Assurance</b>	<b>Response</b>	<b>Comment</b>	<b>Attachment</b>
9.	The School has additional information necessary to support your improvement plan (optional).	Yes	Conant uses Atlas Rubicon to manage our curriculum maps and lesson plan development. Through this tool we are able to ensure that all of the Common Core Content Standards are being taught.  We use Pearson and NWEA to track our assessment data. In Pearson, we create intervention groups based on this assessment data and track the success of the interventions and our students' growth.	

# **2015-2017**

## Overview

### Plan Name

2015-2017

### Plan Description

Final Goals

## Goals Summary

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

#	Goal Name	Goal Details	Goal Type	Total Funding
1	All students will increase their skill in using and understanding fractions.	Objectives: 1 Strategies: 4 Activities: 5	Academic	\$3400
2	All students will apply scientific processes in all content areas.	Objectives: 1 Strategies: 3 Activities: 5	Academic	\$3100
3	All students will show improvement in the comprehension of informational text.	Objectives: 1 Strategies: 5 Activities: 9	Academic	\$5200
4	All students will construct a cohesive piece of writing.	Objectives: 1 Strategies: 4 Activities: 10	Academic	\$12200
5	All school community members will display cultural competence.	Objectives: 1 Strategies: 1 Activities: 2	Organizational	\$1000

## Goal 1: All students will increase their skill in using and understanding fractions.

### Measurable Objective 1:

85% of Third and Fourth grade students will demonstrate a proficiency in their ability to use and understand fractions in Mathematics by 06/17/2022 as measured by NWEA and M-Step assessments..

### Strategy 1:

Explain Your Thinking - Students will use the terms numerator and denominator to explain how a whole unit can be broken into equal parts and lengths.
