Introduction

The SIP is a planning tool designed to address student achievement and system needs identified through the school's comprehensive needs assessment (CNA). Additionally, the SIP provides a method for schools to address the school improvement planning requirements of Public Act 25 of the Revised School Code and the Elementary and Secondary Education Act (ESEA) as applicable.

Improvement Plan Assurance

Introduction

Goal 4: All students will be engaged in a culturally responsive environment that ensures positive relationships with peers and adults.

Measurable Objective 1:

demonstrate a behavior that is culturally responsive and inclusive of students, staff, and community members by 06/16/2017 as measured by Surveys, focus groups, and observation.

Strategy 1:

Culturally Responsive Teaching - This strategy will be on-going and in alignment with district goals aimed at creating classrooms that are more inclusive and equitable. Current efforts to eliminate bullying through PBIS and our I.B.Learner Profile will be further bolstered with this approach. During the 2016-2017 school year, we will continue to build capacity by involving more teachers in Restorative Practices, Global Champions, and The Institute to Heal Racism training provided by a third party consultant. Additionally, community members and all building administration will be trained. Resources and materials will be provided by the third party as well as Oakland Schools Diversity consultant, Jay Marks who works closely with the district and LAC-O.

As we build capacity, we will review our messaging as well as our committees to ensure we are sensitive and representative of our constituents. We will be deliberate in our implementation of the Learner Profile, preferred character traits, to make sure it is inclusive of all stakeholders and that all teachers participate in the monthly highlighted character trait.

Additionally, we will work with the State of Michigan's Attorney General to present their OK2Say program which supports a message of anti-bullying and provides outlets for students to safely report potential harm to themselves or others. We also will work with Defeat Label to implement the Upstander Program with all sixth grade students during the 2016-2017 school year.

Overall impact will be monitored by administration. Impacts on discipline referrals, and feedback from constituents will be determined by surveys.
